## PROFESSIONAL SUMMARY

Highly motivated and results-oriented individual with 1+ years of professional experience in Localization Engineering, transitioning to a career in cybersecurity. Has the ability to manage complex projects, ensure meticulous accuracy, and collaborate effectively in fast-paced environments. Actively pursuing cybersecurity education (Google Cybersecurity Course, ISC2 CC courses) and honing practical skills through platforms like TryHackMe and HackTheBox. Strong analytical and problem-solving skills honed in localization engineering translate seamlessly to cybersecurity analysis and threat detection. Additional experience as a lead photographer. Demonstrates meticulous attention to intricate details in photographic undertakings coupled with the ability to translate client vision into successful results. valuable Identifies client's strengths for cybersecurity planning and risk mitigation.

## EXPERIENCE

**Lead Photographer** **May 2021 - (Current)**  
The Little Picasso, Dumaguete City, 6200, Negros Oriental, Philippines

- **Managed client relationships:** From initial inquiries to event execution, ensured seamless communication and exceeded expectations. Delivered commendable service, resulting in high client satisfaction with requests for repeated service on succeeding events.
- **Developed creative solutions:** Provided insightful creative direction and strategic pricing to align client visions with innovative and feasible solutions. Empowered clients to actualize their unique event concepts, leading to memorable and visually stunning photo experiences.
- **Captured exceptional event photos:** Orchestrated comprehensive event coverage, carefully capturing candid moments, emotions, and intricate details. Delivered a rich narrative that immortalized the essence of each occasion.
- **Delivered high-quality results:** Streamlined post-event processes to ensure prompt delivery of meticulously edited photos within 2-5 days (e.g., Google Drive, OneDrive). Actively engaged in post-event marketing, boosting online presence and driving client engagement.
- **Expanded service offerings:** Leveraged social media expertise to amplify brand visibility and engagement. Developed targeted marketing campaigns, leading to increased brand awareness and expanded services (video animation, event videography).
- **Mastery in visual storytelling:** Possess expert-level editing skills in Adobe Photoshop and Lightroom. Transformed raw footage into captivating narratives using Adobe Premiere and After Effects, exceeding client expectations.

**Localization Engineer** **November 2019 – April 2021**  
Ingenuiti, Dumaguete City, 6200, Negros Oriental, Philippines

- **Localized Digital Assets:** Integrated translated content (documents, websites, video subtitles) into client-specified formats using CAT tools (e.g., SDL Trados) to ensure seamless user experience across languages.
- **Maintained Translation Memory (TM):** Developed and managed TM databases to leverage past translations to ensure efficiency and consistency for future projects.
- **Quality Assurance (QA):** Implemented feedback from linguists, QA specialists, and clients to identify and rectify discrepancies in translated content, ensuring accuracy and adherence to cultural nuances.
- **Teamwork and Collaboration:** Effectively collaborated with linguists, data specialists, web developers, and video editors throughout the localization workflow, fostering clear communication and timely project completion.
- **Process Optimization:** Streamlined workflows by identifying areas for improvement and implementing solutions to enhance team efficiency and productivity.

## SKILLS

CAT Tools (SDL Trados) | Quality Assurance (QA) | Network Security Fundamentals | Threat Detection & Analysis | Vulnerability Assessment | IT Support | Hardware & Software Troubleshooting | User Support | Learning Agility | Problem-Solving & Initiative | Communication & Collaboration | Security Information and Event Management (SIEM) | SOAR Configuration (Elastic Stack) | Security Awareness Training | Security Monitoring & Analysis (Elastic Stack) | Log Analysis & Security Tools (Elastic SIEM) | Incident Handling & Security Playbooks

## EDUCATION

### **BS Computer Engineering**

Silliman University

May 2019

## THESIS

Voice Controlled Automatic Drink Mixer and Dispenser Using Raspberry Pi Computer

### **On the Job Training**

#### **Trabahante.com Online Services**

Amihan, Batinguel, Dumaguete City 6200, Negros Oriental, Philippines

## CERTIFICATIONS/ EVENT PARTICIPATION

- Google Cybersecurity Course (Coursera) – **November 2023**
- Google IT Support Professional Certificate (Coursera) – **November 2023**
- ISC2 Candidate – **December 2023**
- Ethical Hacking and Pentesting Workshop: An Introduction to Hacking, Pentesting, and Cybersecurity – **April 2024**
- South Pacific Photo Workshop – May 2015
- Occupational Safety and Health Seminar – March 2018
- Jobs Basic Entry Skills Seminar – February 2018
- Construction Safety and Health Training – June 2019

## AFFILIATION & MEMBERSHIPS

- The Silliman University Camera Club – Member (2012 – Present)
- Institute of Computer Engineers of the Philippines – Member / Vice President (2012 – 2019)
- I N G E N I U M (Silliman University College of Engineering and Design Student Publication) – Information Media Chairperson (2012)
- Silliman University College of Engineering and Design - Information Media Chairperson (2013 – 2019)
- Miss Silliman – Lead Photographer (2013 - 2019)
- Robotics Competition - Philippine Institute of Computer Engineering Students – Member (2012 – 2019)

## RECOGNITIONS & PUBLICATIONS

- Street Photographers of Dumaguete City – Dumaguete City Tourism Office
- Photography Contest Judge - Renaissance Youth Leaders' Forum
- The Weekly Sillimanian - Contributor
- Dumaguete Metropost - Contributor
- IslandNews – Contributor
- College of Engineering and Design – Service Award
- Dumaguete Water District 1<sup>st</sup> Runner up for photography contest
